

Regis Debray's Revolucion en la Revolucion (Revolution Within the
o
Revolution) was published in Cuba in (presumably) January 1967 and was looked
upon as another "New Testament" of the guerrilla, being used in Cuba among
others for guerrilla training. Text of book was translated and published by
JPRS in ~~TSKX~~ 40,310 20 March 1967 (Translations on Cuba, no. 567). The fourth
printing was issued October 1967. It is hard to find an article on guerrillas
in Latin America which doesn't use or make reference to this book in some
way or another.
